## JCM Compression Coupling for Industrial Service

### JCM 220 Galvanized Compression Fittings

JCM 220 Galvanized Compression Couplings have threaded compression end rings for quick, easy installation for joining plain end pipe in both new and existing systems. Readily available in nominal sizes 1/2" through 2" for steel pipe diameters. Used in conjunction with the JCM 225 Transition Gaskets, shown below, these fittings can be adapted to fit on Copper Tube Size Pipe for joining and transitions between two types of pipe.

Not for gas service.

NOMINAL PIPE SIZE		PIPE O.D. RANGE		CATALOG NUMBER	OVERALL LENGTH IN	CTN. QTY.	CTN. WT.	APPR. WT. EACH (LBS.)
IN	MM	IN	MM					
1/2	15	.840	21	220-0084-L	4-1/8	12	11	.80
3/4	20	1.050	26	220-0105-L	4-1/4	12	14	1.08
1	25	1.315	33	220-0132-L	4-1/2	12	19	1.42
1-1/4	32	1.660	42	220-0166-L	4-3/4	12	23	1.92
1-1/2	40	1.900	48	220-0190-L	5	12	28	2.33
2	50	2.375	60	220-0238-L	5-1/4	12	40	3.38

### JCM 225 Insulating Adapter Gaskets

For adapting iron pipe size fittings to copper tube size. Also for insulation between dissimilar metals to prevent galvanic corrosion.
